<b>Description</b> We don't have the mlockall/munlockall syscalls as documented in [1]. We have at least one tool in base that would benefit from it: cryptsetup. Hopefully someone more familiar with the VM system can implement it without much effort as we already have mlock/munlock.  Cheers, Alex Hornung  [1]: <a href="http://opengroup.org/onlinepubs/007908799/xsh/mlockall.html">http://opengroup.org/onlinepubs/007908799/xsh/mlockall.html</a>
