Description			
While loading up with some network traffic today, I got this panic:			
lwkt_dropmsg() is illegal on port 0xffffffff81d61578 msg 0xffffffffe159ad1d88			
(kgdb) bt			
#0 __get_mycpu () at ./machine/thread.h:69

dropmsg is not implemented for spinport. It should have been fixed in the master by:
89d66f8fc619a10a688ab1f4d864df49093586a0

3_0 branch also has the fix.

Best Regards,
sephe

Has this issue been dealt with?

Thanks,

#3 - 05/01/2012 08:38 PM - pavalos

- *Status changed from New to Closed*
- *Assignee set to sepherosa*
- *Priority changed from Normal to High*

Fixed in 89d66f8fc619a10a688ab1f4d864df49093586a0.
