DragonFlyBSD - Bug #2614

[PATCH][dports] devel/cmake fail to fetch

12/16/2013 01:12 PM - kAworu

Status:	Closed		**Start date:**	12/16/2013
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				

Description

Steps to reproduce:
<pre>
rm -f /usr/distfiles/cmake-2.8.12.1.tar.gz
make -C /usr/dports/devel/cmake fetch
===> License BSD accepted by the user
===>   cmake-2.8.12.1 depends on file: /usr/local/sbin/pkg - found
=> cmake-2.8.12.1.tar.gz doesn't seem to exist in /usr/distfiles/.
=> Attempting to fetch http://www.cmake.org/files/v2.8/cmake-2.8.12.1.tar.gz
fetch: http://www.cmake.org/files/v2.8/cmake-2.8.12.1.tar.gz: Moved Temporarily
=> Attempting to fetch ftp://ftp.FreeBSD.org/pub/FreeBSD/ports/distfiles/cmake-2.8.12.1.tar.gz
fetch: ftp://ftp.FreeBSD.org/pub/FreeBSD/ports/distfiles/cmake-2.8.12.1.tar.gz: File unavailable (e.g., file not found, no access)
=> Couldn't fetch it - please try to retrieve this
=> port manually into /usr/distfiles/ and try again.
*** Error code 1

Stop.
make: stopped in /usr/dports/devel/cmake
</pre>

History

#1 - 12/16/2013 01:13 PM - kAworu

About the attached patch, I've taken the MASTER_SITES from FreeBSD port and build / installed successfully cmake.

#2 - 12/16/2013 01:20 PM - marino

two comments:

1) dports issues are intended to be reported at: https://github.com/DragonFlyBSD/DPorts/issues not here
2) This is an issue for ports, not dports. It should be reported at http://www.freebsd.org/send-pr.html

A global breakage across ports is not something I normally patch. We get it fixed at FreeBSD ports level and let the fix trickle back.

#3 - 12/16/2013 02:06 PM - kAworu

- Status changed from New to Closed

Alright for both 1) and 2), since it is already fixed upstream I guess waiting is the way to go. I am closing this issue then and will report the next dport related one to the appropriate GitHub repository, thank you for your time.
