

DragonFlyBSD - Submit #2841

Import newer rtadvd/rtadvctl from FreeBSD 10

09/18/2015 10:03 AM - cmusser

Status:	Resolved	Start date:	09/18/2015
Priority:	Normal	Due date:	
Assignee:	cmusser	% Done:	100%
Category:	Networking	Estimated time:	0.00 hour
Target version:	4.2.x		
Description			
This patch updates the rtdvd daemon and adds the rtadvctl utility to the base system. Both of these are from 10.2-RELEASE. The intent is to add RFC 6106 functionality (DNS information distributed via router advertisements) to the system.
