Target version:			
Description			
Cert has published VU#548487 that states there is a potential for a buffer overflow in link_ntoa() at https://www.kb.cert.org/vuls/id/548487 .			
They've a vendor page for DragonFly at https://www.kb.cert.org/vuls/id/BLUU-AF4LH7 that will allow for marking of if DF is affected/has a patch or not.
