(da0:umass-sim0:0:0:0): Write protected
(da0:umass-sim0:0:0:0): Unretryable error
(da0:umass-sim0:0:0:0): WRITE(10). CDB: 2a 0 0 1e a3 0 0 0 40 0
(da0:umass-sim0:0:0:0): CAM Status: SCSI Status Error
(da0:umass-sim0:0:0:0): SCSI Status: Check Condition
(da0:umass-sim0:0:0:0): DATA PROTECT asc:27,0
(da0:umass-sim0:0:0:0): Write protected
(da0:umass-sim0:0:0:0): Unretryable error

The images that spew this error actually dont get copied over and theres MANY of them.

Petr

History

#1 - 01/01/2009 11:56 AM - elektretterr

Actually it happens for every image after the first 20 or so.

I also notice that if I stop the copy process and try to ls the folder on the camera, i get a total freeze and i have to reset the box.
