

DragonFlyBSD - Bug #3108

sys/dev/disk/fd/fd.c:802: suspicious if statement ?

12/04/2017 08:20 AM - dcb

Status:	Closed	Start date:	12/04/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Driver	Estimated time:	0.00 hour
Target version:			

Description

dragonfly/sys/dev/disk/fd/fd.c:799] -> [dragonfly/sys/dev/disk/fd/fd.c:802]: (warning) Opposite inner 'if' condition leads to a dead code block.

Source code is

```
error = isa_dma_acquire(fdc->dmachan);
if (!error) {
isa_dma_init(fdc->dmachan, 128 << 3 /* XXX max secdsize */,
M_WAITOK);
if (error) {
isa_dma_release(fdc->dmachan);
```

History
